## Cemetery & Burial Costs inc examples

Cemeteries' & Grave costs vary the most and can often depend if the deceased is a resident of the borough or not, we can advise on the precise cost when we know the details. Local Authorities encourage burial within the borough of residence and give priority to local residents and it is common practice they will treble grave costs for those wishing to be buried outside of their borough.

Cemetery fees can also vary depending on the specific requirements, such as the cemetery used, grave type, grave ownership, and as mentioned the local residence status of the deceased. The example quotes given below are for the exclusive right of burial and digging/interment of a single depth grave for a local resident at
